

Jennifer Senick

Jennifer Senick is the Executive Director of the Rutgers Center for Green Building at the Edward J. Bloustein School of Urban Planning and Policy Development, Rutgers University, a position she has held since 2006. She is an experienced urban planner and was trained in Political Science, Economics and Public Policy from Bowdoin College, the University of California, Los Angeles and the Rand Corporation. Ms. Senick is a frequent speaker and has produced numerous articles and papers on sustainable development and green building, specializing in Building Life Cycle Analysis and Building Performance Evaluation and Occupancy Survey research. She serves as an Advisor to the New Jersey Chapter of the US Green Building Council, on the editorial board member of Brownfield Renewal, is co-chair of the Environmental Design Research Association (EDRA) Sustainable Planning Design and Behavior Network, and is the DOE Energy Efficiency Building Hub (EEB) Greater Philadelphia project leader for Codes and Standards. Ms Senick recently has been a lead investigator on grant-funded research from the US Department of Energy, the US Housing and Urban Development Agency, the US Green Building Council, NJ GBC, and other state and privately funded research.
